

Signatory to the
Responsible Care® Global Charter

BASF

is a signatory company to the Responsible Care Global Charter. The Global Charter signature is a firm commitment to strengthen the chemical industry's unique voluntary initiative – Responsible Care.

By implementing the Global Charter, BASF continues to improve its environmental, health and safety performance; advance sustainable development; facilitate the extension of Responsible Care throughout its operations worldwide and across the value chain, meeting and exceeding stakeholder expectations for safe chemicals management through a process of continuous improvement.

The International Council of Chemical Associations, ICCA, commends BASF for its continued commitment to Responsible Care.
